Notation:
Article title . . . . . [month — page number]
Example: . . . . . 10 — 63 = October 1998, page 63
S = in Supplement

Application Notes

AM/FM antenna matching IC (Telefunken/Temic) . . . . . 2 — 48
AM/FM receiver IC (Telefunken/Temic) . . . . . 6 — 50
Compact 3.3V charge pump converter (Linear Technology) . . . . . 10 — 52
DS5000 soft microcontroller (Dallas Semiconductor) . . . . . 1 — 46
ESD protection for I/O ports (Maxim) . . . . . 7/8 — 43
Home automation modem (Philips Semiconductors) . . . . . 5 — 60
Programmable sensor interface MLX90308 (Melexis) . . . . . 11 — 56
µProcessor system hardware monitor (National Semiconductor) . . . . . 4 — 52

Audio/Video, Music

1 Watt BTL audio amplifier . . . . . 12 — 68
100-watt single-IC amplifier . . . . . 7/8 — 17
Accurate bass tone control . . . . . 12 — 59
AVC for PCs . . . . . 2 — 24
Balanced microphone amplifier . . . . . 7/8 — 64
Balanced/unbalanced converters for audio signals . . . . . 3 — 22
Clipping indicator for compact disc . . . . . 10 — 46
Crossover for subwoofer . . . . . 7/8 — 47
How does a digital loudspeaker system work? . . . . . 9 — 30
Microphone valve preamplifier . . . . . 7/8 — 76
Playback amplifier for cassette deck . . . . . 12 — 56
Presence filter . . . . . 12 — 62
Simple copybit killer . . . . . 7/8 — 22
Simple electronic metronome . . . . . 2 — 36
Sounds from the Old West . . . . . 7/8 — 77
Speech eroder . . . . . 12 — 74
Stereo microphone input for PC . . . . . 1 — 42
Ten-band equalizer . . . . . 12 — 71
The super audio CD . . . . . 9 — 11
Treble tone control . . . . . 12 — 54
Two-way AF amplifier LM4830 . . . . . 7/8 — 81
Ultra-low-noise MC amplifier . . . . . 12 — 60
Up/down drive for tone control . . . . . 12 — 82
Video amplifier . . . . . 7/8 — 100

Computers, Microprocessors, Software

80C32 BASIC control computer (1) . . . . . 2 — 30
80C32 BASIC control computer (2) . . . . . 3 — 40
A compact display controller . . . . . 11 — S12
A noisy PC . . . . . 5 — S12
A simple A-D converter . . . . . 6 — S2
A simple PC network . . . . . 2 — S2
Accurate time measurement in Visual BASIC . . . . . 9 — S12
A-D converter for MatchBox BASIC computer . . . . . 12 — 70
AVC for PCs . . . . . 2 — 24
AVR-RISC evaluation system (1) . . . . . 10 — S6
AVR-RISC evaluation system (2) . . . . . 11 — S2
Cable tester . . . . . 1 — S9
CD-R formats . . . . . 11 — S8
Centronics in-system programmer . . . . . 7/8 — 86
Computer emulators . . . . . 5 — S2
Data acquisition by modem . . . . . 3 — S6
Display refresh meter . . . . . 1 — S12
Do more with the gameport . . . . . 9 — S6
Dust in the PC . . . . . 3 — 12
Electronic Engineering (EE) virtual libraries . . . . . 1 — 38
Electronic Handyman (2) . . . . . 1 — 26
Electronics Workbench layout . . . . . 10 — 60
E-meter (PC monitor radiation) . . . . . 4 — 40
Experimental power supply for PCs . . . . . 9 — S2
Extension board for MatchBox BASIC computer . . . . . 7/8 — 94
External port for tape streamer . . . . . 10 — S16
Faster access to the Internet . . . . . 4 — S2
Fibre-optic data communication . . . . . 5 — 52
Game control adaptor . . . . . 7/8 — 84
How do I set up a network? . . . . . 3 — S2
Improved power-down for the 8051 . . . . . 12 — 57
Information on CD-R(W) . . . . . 11 — 54
Intercast — free Internet pages via TV signals . . . . . 12 — S6
IRQ and DMA usage . . . . . 6 — S10
Joystick and MIDI interface for Soundblaster cards . . . . . 12 — S10
Keyboard switch . . . . . 11 — S6
Light intensity measurement with a PC . . . . . 2 — S14
Linux — a Windows alternative? . . . . . 10 — S2
Low-cost development system for PICs . . . . . 7/8 — 72
Memory change-over tip . . . . . 12 — 57
Modem off indicator . . . . . 7/8 — 63
Modern modem technology . . . . . 1 — 32
Multiple test card (for microcontrollers) . . . . . 9 — 50
No more Peeping Toms on the Internet . . . . . 2 — 39
Oscilloscope software . . . . . 12 — 12
Parallel-to-serial converter . . . . . 12 — S2
PC control for MiniDisc player . . . . . 11 — 30
PC-on-a-chip . . . . . 12 — S9
PIC & AVR programmer . . . . . 6 — 26
PIC on the rocks . . . . . 1 — S6
PIC16C84 programmer for Centronics port . . . . . 7/8 — 62
PICs on the Internet . . . . . 6 — 24
PICXEX (operating system) . . . . . 5 — 56
PLD Gyroscope version 2 . . . . . 1 — S14
Preamplifier for soundcards . . . . . 12 — S5
Projects for PC & infrared remote control . . . . . 6 — S14
R/C interface for PC Flight Simulator . . . . . 10 — S12
RS232 controlled 8-channel switch . . . . . 6 — S6
RS232 interface for 68HC11 . . . . . 2 — S6
SCSI . . . . . 5 — S6
Small VGA-tester . . . . . 9 — S14
Stereo microphone input for PC . . . . . 1 — 42
The modern printer port . . . . . 4 — S12
USB and Firewire . . . . . 2 — S10

General Interest

32-channel PC-controlled light dimmer . . . . . 12 — 30
4-bit analogue-to-digital converter . . . . . 7/8 — 16
6-channel running light . . . . . 7/8 — 92
Ambient-noise monitor . . . . . 12 — 82
Anemometer . . . . . 12 — 14
Auto power off . . . . . 7/8 — 74
Automatic air humidifier . . . . . 7/8 — 96
Automatic light dimmer . . . . . 7/8 — 75
Balanced amplifier for photodiode . . . . . 12 — 69
Berlin clock . . . . . 7/8 — 87
Bi-directional I²C level shifter . . . . . 7/8 — 16
Car immobilizer . . . . . 12 — 66
Car interior lights delay . . . . . 7/8 — 73
Chipcard as security key . . . . . 7/8 — 31
Circuit ideas for the NE612 . . . . . 12 — 65
DCF-controlled LED clock . . . . . 5 — 26
Design hunting . . . . . 5 — 46
Digital cameras . . . . . 10 — 22
Digital output with sink/source driver . . . . . 12 — 88
Doorbell-controlled burglar deterrent light . . . . . 7/8 — 46
Electrical isolation for I²C bus . . . . . 7/8 — 48
Electronic die . . . . . 1 — 58
Electronic spirit-level . . . . . 7/8 — 36
Exposure timer for UV light box . . . . . 7/8 — 38
Fast voltage-driven current source . . . . . 12 — 81
Faultfinding . . . . . 10 — 40
Field programmable analogue array (Motorola MPAA020) . . . . . 6 — 56
Flashing brooch . . . . . 3 — 64
Flat-panel displays . . . . . 6 — 32
Functional trinket . . . . . 2 — 56
General-purpose alarm . . . . . 12 — 58
General-purpose oscillator . . . . . 7/8 — 79
Infra-red burglar alarm . . . . . 12 — 76
Infra-red proximity detector . . . . . 7/8 — 65
Infra-red receiver . . . . . 7/8 — 41
Input impedance booster . . . . . 12 — 67
Input impedance booster . . . . . 7/8 — 98
Introduction to digital signal processing (1) . . . . . 1 — 20
Introduction to digital signal processing (2) . . . . . 2 — 40
Introduction to digital signal processing (3) . . . . . 3 — 28
Introduction to digital signal processing (4) . . . . . 4 — 56
Introduction to digital signal processing (5) . . . . . 5 — 40
Introduction to digital signal processing (6) . . . . . 6 — 40
Ionization circuit . . . . . 3 — 46
Laser-controlled burglar deterrent . . . . . 9 — 16
Latch uses 555 in memory mode . . . . . 12 — 77
LED bar off indicator . . . . . 7/8 — 71
LED lighting for consumer unit cupboard . . . . . 12 — 86
Light from flat batteries . . . . . 12 — 76
Low-impact muscle stimulator . . . . . 7/8 — 103
Mains phase indicator . . . . . 12 — 63
Master/slave switch 'deluxe' . . . . . 11 — S14

INDEX 1998

ELEKTOR ELECTRONICS

Microgate logic ..... 7/8 — 28
Modified humidity control ..... 12 — 64
Multi-colour LED ..... 7/8 — 90
Opamp with hysteresis ..... 7/8 — 77
Parking sonar ..... 4 — 20
PC control for MiniDisc player ..... 11 — 30
Philbrick oscillator ..... 12 — 61
PLD Gyroscope version 2 ..... 1 — S14
Pulse/frequency modulator ..... 7/8 — 97
RC5 remote control extension ..... 7/8 — 11
Rear light afterglow ..... 7/8 — 30
Reflector for pedestrians ..... 7/8 — 89
Refrigerator economizer ..... 10 — 54
RFID systems ..... 11 — 40
Semiconductor overviews ..... 3 — 62
Simple infrared transmitter ..... 7/8 — 101
Simple moisture detector ..... 12 — 81
Sinewave-to-TTL converter ..... 12 — 67
Smartcard reader/writer (2) ..... 1 — 68
Smartcard-operated code lock ..... 11 — 24
Stage-lighting control (DMX512) ..... 2 — 52
Symmetrical full-wave rectifier ..... 7/8 — 100
Tachometer for mopeds and motor scooters ..... 10 — 34
Thrifty light-controlled switch ..... 12 — 75
Torchlight dimmer ..... 12 — 54
Versatile aid for experimenters ..... 9 — 58
Versatile control system PLC87(A) (1) ..... 10 — 28
Versatile control system PLC87(A) (2) ..... 11 — 18

Power Supplies & Battery Chargers

1.5 A step-down switching regulator ..... 12 — 79
Battery capacitance measurement by PC ..... 12 — S14
Battery tester ..... 7/8 — 68
Battery-charging indicator for mains adaptor ..... 12 — 55
Battery-resistance meter ..... 5 — 48
DC-DC converter ..... 7/8 — 29
Developments in battery chargers ..... 7/8 — 32
Discharge circuit ..... 6 — 48
Experimental power supply for PCs ..... 9 — S2
Lead-acid battery regulator for solar panel systems ..... 12 — 72
Low-drop 5 V regulator ..... 7/8 — 37
Low-power voltage reference ..... 7/8 — 63
Mains filter revisited ..... 12 — 83
Mains filter with overvoltage protection ..... 4 — S8
Mains master/slave control Mk2 ..... 7/8 — 70
Mains splitter for AF power amplifiers ..... 12 — 64
Maintenance charger (for 6/12V lead acid batteries) ..... 7/8 — 52
NiCd battery charger ..... 7/8 — 92
Overload protection ..... 7/8 — 30
Polarity reverser ..... 12 — 62
Simple electrification unit ..... 12 — 68
Single-supply operation of the AD736 ..... 12 — 87
Soft start for switching power supply ..... 7/8 — 98
Switch-mode power supply ..... 7/8 — 97
Thrifty voltage regulator ..... 7/8 — 18
Ultra-low power 5V regulator ..... 7/8 — 49
Uninterruptible power supply (UPS) for cordless telephones ..... 1 — 54
Universal lead-acid battery protector ..... 7/8 — 28
Variable power supply (0-24V, 1A/2A) ..... 3 — 16
XS symmetrical supply ..... 12 — 74

Radio, TV and Communications

0.5-6 GHz low-noise amplifier ..... 12 — 85
20-metre SSB/CW receiver ..... 4 — 14
418/433 MHz control system ..... 9 — 40
418/433 MHz fieldstrength meter ..... 10 — 14
418/433 MHz short-range communication ..... 5 — 34
Active magnetic antennas (Omega-2 and –3) ..... 9 — 22
Active short-wave antenna ..... 7/8 — 89
ATU for 27 MHz CB radios ..... 12 — 86
Broadband RF preamplifier ..... 5 — 14
Co-channel interference suppression using stacked antennas ..... 6 — 14
Digital Audio Broadcasting (DAB) (1) ..... 3 — 34
Digital Audio Broadcasting (DAB) (2) ..... 4 — 34
Digital terrestrial television ..... 12 — 44
Free radio! ..... 4 — 66
Frequency display and VFO stabilizer ..... 2 — 18
From Russia with vision ..... 12 — 11
Ultima loopstick VLF antenna ..... 7/8 — 108

Test & Measurement

12/24/48 V d.c. tester ..... 12 — 85
418/433 MHz fieldstrength meter ..... 10 — 14
A simple A-D converter ..... 6 — S2
Barometer/altimeter (1) ..... 11 — 48
Barometer/altimeter (2) ..... 12 — 38
Battery-resistance meter ..... 5 — 48
Cable analyser ..... 7/8 — 78
Cable tester ..... 1 — S9
Celsius thermometer ..... 7/8 — 41
Conductance tester ..... 6 — 54
Electronic accelerometer ..... 6 — 20
E-meter (PC monitor radiation) ..... 4 — 40
I2C temperature sensor ..... 12 — 80
IC tester (1) ..... 3 — 50
IC tester (2) ..... 4 — 46
IC tester ..... 1 — S3
Infra-red remote control tester ..... 7/8 — 99
JFET tester ..... 2 — 12
LCD tester ..... 7/8 — 37
LED barometer ..... 12 — 84
Light intensity measurement with a PC ..... 2 — S14
Liquid-level gauge ..... 6 — 60
Low-cost function generator ..... 12 — 78
Mains pulser ..... 12 — 73
Mini audio signal generator ..... 7/8 — 48
Monitor/TV refresh rate meter ..... 5 — 20
Multiple test card (for microcontrollers) ..... 9 — 50
Oscillation monitor ..... 7/8 — 64
PC-aided BJT tester revisited ..... 4 — 26
Portable sound-pressure meter ..... 1 — 14
Pulse rate monitor ..... 7/8 — 78
RF signal generator (1) ..... 11 — 10
RF signal generator (2) ..... 12 — 20
Simple function generator ..... 7/8 — 39
Three-state continuity tester ..... 7/8 — 75
Thyristor tester ..... 7/8 — 95
Two-wire temperature sensor ..... 7/8 — 19

Datasheets

AD22100 (Analog Devices) ..... 10 — 65
AD557 (Analog Devices) ..... 4 — 61
AT90S1200 Instruction Set Summary (Atmel) ..... 1 —39
Beaufort scale ..... 12 — 89
CS8412 (Cirrus Logic) ..... 10 — 65
IC tester — test vectors, illustrated examples ..... 4 — 61
ICM7218A (Maxim) ..... 5 — 67
OHN3040U/OHS3040U ..... 12 — 89
PLC87(A) Instruction Set ..... 11 — 65
Quick Reference Card for 80C32 BASIC computer ..... 2 — 69
RC-5 Codes (Philips) ..... 9 — 65
SSM2141/SSM2142 (Analog Devices) ..... 3 — 71
T-Series iron powder cores (Amidon) ..... 5 — 67
UM8250A (United Microelectronics Corp.) ..... 6 — 69
V23057 card relay E (Siemens) ..... 6 — 69
XC9356 (Xilinx) ..... 12 — 89

Corrections, Updates, Letters (P.O. Box 1414)

4-way serial port switch ..... 1 — 51
ADC for Centronics port ..... 1 — 51
CPU overclocking ..... 1 — 50
Earthing in Variable Power Supply ..... 5 — 70
EPROM programmer ..... 5 — 70
EPROM programmer ..... 7/8 — 66
Function generator ..... 1 — 51
Hybrid power amplifier — copyright violation ..... 1 — 51
Intelligent IC tester ..... 9 — 35
Mini PIC programmer ..... 1 — 50
Motorola software utilities pack now by ftp ..... 5 — 70
PIC controlled home alarm system ..... 1 — 51
Simple electronic metronome ..... 3 — 63
Video copy processor ready-built? ..... 1 — 51
